

## KraneShares E Fund China Commercial Paper ETF

### Investment Strategy:

The KraneShares E Fund China Commercial Paper ETF (NYSE: KCNY) seeks to track the CSI Diversified High Grade Commercial Paper Index, composed of commercial papers traded on the inter-bank market with high grade ratings. The Fund seeks to invest at least 80% of its total assets in a diversified basket of investment-grade\*\* commercial paper denominated in on-shore renminbi issued by sovereign, quasi-sovereign and corporate issuers in the People's Republic of China and traded in the inter-bank bond market. Commercial paper in the Fund is investment-grade and has a remaining term to final maturity of no more than one year and no less than one month.

### KCNY features:

- Only invests in money market securities (i.e. commercial paper) and attempts to preserve principal investment while providing attractive monthly distributions
- The average maturity for the fund is less than six months
- Only invests into commercial paper that has received an investment grade credit rating

### China commercial paper may be appropriate for investors who have:

- Allocation to investment products that only invest in money market securities
- Investment goal with a short time horizon
- Daily liquidity requirement

**The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investors shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. For performance data current to the most recent month end, please visit [www.kraneshares.com](http://www.kraneshares.com).**

Index returns are for illustrative purposes only. Index performance returns do not reflect any management fees, transaction costs or expenses. Indexes are unmanaged and one cannot invest directly in an index.

\*Fee waivers are contractual and in effect until August 1, 2021

\*\*For purposes of the Underlying Index, investment grade commercial paper is commercial paper that is issued by an issuer whose long-term bonds are rated AAA or equivalent by one or more Chinese credit rating agencies; or commercial paper that is issued by an issuer whose long-term bonds are rated AA+ or equivalent by one or more Chinese credit rating agencies and commercial paper is rated A-1 or equivalent by one or more Chinese credit rating agencies

**Definitions:**

Average Weighted Maturity: A calculation of the weighted average of the maturities of fixed income instruments held in a portfolio.

30-day SEC Yield (Subsidized/Unsubsidized): standard yield calculation developed by the U.S. Securities and Exchange Commission (SEC) that allows for fairer comparisons of bond funds. It is based on the most recent 30-day period covered by the fund's filings with the SEC. Unsubsidized yield does not adjust for any fee waivers and/or expense reimbursements in effect.

**Carefully consider the Funds' investment objectives, risk factors, charges and expenses before investing. This and additional information can be found in the Funds' full and summary prospectus, which may be obtained by visiting [www.kraneshares.com](http://www.kraneshares.com). Read the prospectus carefully before investing.**

**Risk Disclosures:**

Investing involves risk, including possible loss of principal. There can be no assurance that a Fund will achieve its stated objectives. The Funds are subject to political, social or economic instability within China which may cause decline in value. Fluctuations in currency of foreign countries may have an adverse effect to domestic currency values. Emerging markets involve heightened risk related to the same factors as well as increase volatility and lower trading volume. In addition to the normal risks associated with investing, investments in smaller companies typically exhibit higher volatility.

The KraneShares E Fund China Commercial Paper ETF is subject to interest rate risk, which is the chance that bonds will decline in value as interest rates rise. The components of the securities held by the Fund will be rated by Chinese credit rating agencies, which may use different criteria and methodology than U.S. entities or international credit rating agencies. The Fund may invest in high yield and unrated securities, whose prices are generally more sensitive to adverse economic changes and consequently more volatile. The Fund is subject to industry concentration risk and is non-diversified. Narrowly focused investments typically exhibit higher volatility.

Fund shares are bought and sold on an exchange at market price (not NAV) and are not individually redeemed from the Fund. However, shares may be redeemed at NAV directly by certain authorized broker-dealers (Authorized Participants) in very large creation/redemption units. The returns shown do not represent the returns you would receive if you traded shares at other times. Shares may trade at a premium or discount to their NAV in the secondary market. Brokerage commissions will reduce returns. Beginning 12/23/2020, market price returns are based on the official closing price of an ETF share or, if the official closing price isn't available, the midpoint between the national best bid and national best offer ("NBBO") as of the time the ETF calculates the current NAV per share. Prior to that date, market price returns were based on the midpoint between the Bid and Ask price. NAVs are calculated using prices as of 4:00 PM Eastern Time.
